

## LG2020 Powered Stair Climber

### For people to be used on straight, spiral, flaired and narrow staircases

The most competitively priced stairclimber for a range of staircases and terrains including spiral and flared stairs. Unique rear support wheels, for safe movement on stairs. It breaks down into lighter units for transport in small vehicles. Easy to disassemble and store when not in use, and quick to reassemble. Extremely lightweight and in addition to its compact size it is very easy to manoeuvre even in tight spaces. It is strong and durable with an autonomy that is unrivalled. AIRPORT VERSION or for taller steps. It has an integral quick release step to cope with the bottom step of aircraft steps.

### Applications

- Aeroplane model for use on aircraft steps
- Suitable for use on spiral and flared stairs, historic and listed buildings and it can be stored and moved easily, as it does not attach to the fabric of the building.
- Extendable platform
- Compact and easy to disassemble
- Flexible seating options. Suitable for aeroplane applications
- AIRPORT VERSION or for taller steps. Has an integral quick release step to cope with the bottom step of aircraft steps.

### Why buy the LG2020?

- Rear support allows a climb assisted effortless and comfortable
- Ergonomic handle with large buttons for easy and safe control of the stairlift
- Adjustable brake in order to better adapt to all types of stairs
