## S-MAX SELLA Powered Stairclimber

### Powered stairclimber that can be used on external, spiral, flared, straight and narrow stairs

Frequently, buildings have neither been designed nor built in such a way, that they are accessible for disabled people. In these instances, stairs become a great obstacle that needs overcoming. With the S-Max Sella stairclimber, you can solve this problem effortlessly and elegantly.

The S-Max Sella device always allows access and evacuation. This powered stairclimber can be used on many types of stairs, inside as well as outside. It is particularly manoeuvrable and comfortable since the seat is already integrated into the S-Max Sella. For transportation, you can fold up or disassemble the S-Max easily. Based on the original C-Max, the S-Max Sella has a vast amount of options for user and operator comfort. of non-standard staircases. For small, compact apartments with narrow doorways, the C-Max represents the ideal solution.

### Applications

- Ideal for narrower stairs and landings as a compact unit, such as historic buildings, straight, spiral and flared stairs when someone can transfer.

### Why choose CS-MAX SELLA?

- Great for non-standard staircases where other stairclimbers cannot fit or manoeuvre.
- Fold-away seat for easy transportation and storage.

- There are a variety of models and adaptations to suit different needs.

### About us

Evaccess provide the most comprehensive range of evacuation chairs and stairclimbers to improve safety when getting people in and out of buildings. Important - people have different needs and therefore require different choices.
