STAIRMATE SA-S Powered Stair Climber

For manual wheelchairs (Up and downstairs)

The Stairclimber (SA-S) is an easy to use, portable wheelchair lift designed to attach to most manual wheelchairs. It is simple to operate and is a one-person operation. The powerful motor allows a small attendant to safely transport a passenger lighter or heavier than themselves up and down stairs. The SA-S is suitable for indoor or outdoor use in public buildings and private homes. An affordable and reliable portable access and egress solution.

Applications

- Ideal for travelling upstairs and downstairs without the need to transfer from a manual wheelchair
- Wedding venues and other public buildings where lifts are not available or are out of action
- Can be transported in a vehicle so can attend venues and buildings with a step!

- Flexible extensions allow for wider wheelchairs
- Bespoke capability
- 150 KG Max Weight Capacity.

Why buy the Stairmate SA-S?

- Short wheelbase
- Less space needed to turn on small stair landings
- Single touch operation

About us

Evaccess provide the most comprehensive range of evacuation chairs and stairclimbers to improve safety when getting people in and out of buildings. Important - people have different needs and therefore require different choices.
