

## ESCAPE-CHAIR® ST-B Manual evac chair for general use

This Escape-Chair® is most suitable for helping you to meet your minimum legal requirements and is suitable for general use in public buildings. This chair can take an individual down a flight of straight stair within an emergency.

This model has basic features only but can also be fitted with additional features such as a footrest.

These manual downward Evacuation Chairs are suitable if you only need to offer the basic level of assistance in an emergency evacuation. It folds up and can be stored away neatly against a wall or in a cabinet.

- Designed to travel downstairs only
- Maximum carrying capacity: 185 kg.

### Applications

- Any situation that requires moving a person with reduced mobility downstairs
- Fire evacuation

### Why choose the ESCAPE-CHAIR® ST-B

- Light weight, easy to operate
- Ready to use within a few seconds
- Unfolding stand with wide wheel base for horizontal transport
- Ergonomic single backrest
- Anti-slip on operating handle and lower bracket
- Operating handle: 1 position
- Standard seat
- Head rest including immobilisation band
- Optional: Padded (upholstered) headrest.

## About us

Evaccess provide the most comprehensive range of evacuation chairs and stairclimbers to improve safety when getting people in and out of buildings. Important - people have different needs and therefore require different choices.

Evaccess have formed a partnership with Escape Mobility Company Ltd, since 2019. We are a UK distributor and we work on their behalf to complete service and training jobs across the whole of the UK and Ireland. Evaccess are also responsible for completing Site Survey's for Escape Mobility, who are based in the Netherlands, but work with many other countries internationally.
