ESCAPE-CHAIR® VOLT Powered evac chair suitable for access and egress

The Escape-Chair® VOLT is powered by battery and has an easy-to-understand control panel with display that is located on the operating handle. After unfolding the Escape-Chair® VOLT it is immediately ready to use.

Can be operated by just one person by simply pushing the operating handle down in the direction of the stairs. The best solution for solving more complex access and evacuation issues.

This model has been especially designed for people with reduced mobility (PRM) to assist with getting up and down stairs. Ideally suited for emergency situations, fire evacuation, access, and lift breakdowns.

Applications

- Can be used in all public areas for example, airports, sports stadiums. All building with straight stairs and handle system for curved and spiral stairs
- Basement evacuation
- Airport buses and ambulances.

Why choose the ESCAPE-CHAIR® VOLT

- Ready for use within seconds
- Footrest
- Armrests

About us

Evaccess provide the most comprehensive range of evacuation chairs and stairclimbers to improve safety when getting people in and out of buildings. Important - people have different needs and therefore require different choices.

Evaccess have formed a partnership with Escape Mobility Company Ltd, since 2019. We are a UK distributor and we work on their behalf to complete service and training jobs across the whole of the UK and Ireland. Evaccess are also responsible for completing Site Survey's for Escape Mobility, who are based in the Netherlands, but work with many other countries internationally.
