

EVAC+ CHAIR 900H Powered Evacuation Chair

A powered evac chair ideal for an emergency fire evacuation or to transfer a person with reduced-mobility up or down a staircase.

This evac chair is powered by a lithium-ion battery with safety features to protect the passenger and the operator. The Powered Belt Track System reduces manual handling and facilitates a smooth, safe and quick method of upward and downward evacuation.

- Designed to travel downstairs
- 160 KG Max Weight Capacity

Applications

- Transferring a person with reduced mobility up or down stairs
- Fire evacuation
- Emergency evacuation of a building

Why choose this model?

- Easy to use
- Supports passenger's head
- Powered belt track system
- Supportive arm rests and safety belt
- 24v lithium-ion battery
- Foot rests

About us

Evaccess provide the most comprehensive range of evacuation chairs and stairclimbers to improve safety when getting people in and out of buildings. Important - people have different needs and therefore require different choices.
