

LG2004 T-Lift

Stairlift with tracks and platforms.

The LG2004 T-Lift is suitable for any wheelchair model as it is equipped with different types of ramps.

Thanks to its intuitive LED display, operators can manoeuvre the stairlift effortlessly, viewing the recommended movements for safe ascent and descent. The lift ensures that the user stays upright and comfortable due to its ability to tilt 55 degrees, as well as having an exceptional load capacity of up to 300kg.

The T-Lift offers a customised mobility experience for every user, overcoming architectural barriers with comfort and safety.

Applications

- Designed to overcome architectural barriers with comfort and safety
- Suitable for L-shaped and U-shaped landings.

About us

Evaccess provide the most comprehensive range of evacuation chairs and stairclimbers to improve safety when getting people in and out of buildings. People have different needs therefore they require different choices.
