LG350T Tracked Powered stair climber

Electric tracked stair climber for transport of goods up to 350kg

With its compact and stable design, the LG350T is accessible to both beginners and experts when carrying heavy goods. The tracked electric stair climber includes an accelerator for the gradual adjustment of tracks and an indicator that assists the user in manually adjusting the inclination. When using this machine, the handler can be assured of maximum safety and comfort when transporting goods.

Applications

- Carrying heavy loads up and down stairs safely ensuring comfort for the handler.
- Gives operator power on any surface for maximum guidance.

Why choose LG350T

- Balancing support wheels that ensure security on any surface
- Digital screen to assist handler
- Rear swivel wheels for unique manoeuvrability.
- Can transport large loads of up to 350kg

About us

Different models of stairclimbers to move goods up and down stairs reducing manual handling and damage to properties.
